The Dana DMC

Difference

Our passion is to share and promote Ecuador around the world by providing off the beaten path, carefully curated, tailor-made itineraries that maximize the travel experience.

Our mission is to feature the best of our country for our partners through a personalized, detailed oriented and simplified assistance. This is what sets us apart from other travel companies.

When you are partnering with us, you gain access to the expertise, an inside view, know-how and knowledge offered by the hand of a friendly team of travel experts passionate to find the best options!

Customized Experiences

Every one of our itineraries can be handcrafted in something completely unique to you. We provide genuine interaction with the destination, tailored to your specific requirements, interests, and budget.

Trusty and Quality Suppliers

A carefully selected suppliers' chain allows us to guarantee quality standards with inventive solutions for a wide variety of travelers' tastes and interests.

Simplified Service & First hand Know-How

We make sure that every element of our trips are accurately planned. Forget about multiple suppliers, we are pleased to simplify things for you as your only point of contact, using our extensive knowledge of mainland Ecuador and the Galapagos Islands with the best price/quality ratio too!.

Support & Assistance

We have your back! by the perfect combination of compromised working team plus the advantages of digital tools. An exclusive Partners Site where you will be able to manage your bookings and checking real time availability of our portfolio of Galapagos Ships.

Reliable Partnership

We are operating since 2016 and are the proud owners of Las Terrazas de Dana Boutique Lodge & Spa located in the Cloud Forest of Mindo. We are recognized by the Ministry of Tourism and others Ecuadorian regulatory entities. Also registered as a company in the USA under the name of Dana Tours LLC to optimize ease of payment from abroad.

Dana DMC

About us

We are a family business run by two siblings, David and Ana, hence how we came up with the name "Dana". Our experience in tour and travel began back in 2006 when David first met the country and fell in love with its beauty, versatility, and nature. He decided to settle in Ecuador in 2010 and started the construction of the lodge in the pristine cloud forest of Mindo in 2013 to finally be inaugurated in February 2015.

Las Terrazas de Dana Boutique & Spa was conceptualized as a pioneer in sustainable practices, personalized service, and top experiences for guests.

Once we were giving advice to our lodge guests about places to visit and tours in general, we have seen the necessity of creating a DMC Company that allows us to extend the same quality of services and personalized assistance for memorable trips in Ecuador, Mindo, and the Galapagos Islands.

Our Team and Corporate Values

We feel passion of what we do and the experiences we would like to create for our travelers and partners. That is our commitment and the guide for our daily work.

Our team and company are glad to share these values:

Integrity & Empathy

Is the guide for our work and the relationships on which our work and success hinge on honest communication, transparent negotiations with all the supplier-client chain involved, and getting to know the clients' needs and expectations.

Service Commitment

Always providing rapid responses and solutions in order to create great experiences. Nothing is too much trouble for us when it comes to our clients and guests!

Connection & Team Work

A main key piece to entice a continued improvement in what we do. It enlivens us as individuals and gives meaning to our work: to connect with our clients, peers, suppliers, and industry, and, of course, the rest of the world.

Sustainable Travel

We recognize the importance of environmentally friendly practices in our business. Our commitment is to reduce carbon emissions by an efficient supplies acquisition and optimizing times of operation in our itineraries; recycling our wastes, responsible energy.

Sustainable Tourism

The rise of responsible travel in the last quarter of the 20th century challenged the way tourism operates.

We are aligned with the sustainable development goals promoted by Unesco and we had been nominated into the elite CREST Platinum Sponsors category.

The conservation at the Andean - Chocó Corridor, declared as Biosphere Reserve in 2018 has become our foremost goal and lead us to join forces with the local community and organizations, besides implementing sustainable practices in our lodge. Some of them are:

- Energy Save Program by inducing our guests and staff about the adequate use of electricity
- Recycling and reusing supplies reduces the amount of waste generated by the Lodge.
- Buying from locals to support the local economy chain and optimizing supplies' transportation to reduce the carbon footprint due to fuel burnt for operations.
- Creating local job opportunities with competitive salaries, flexible work hours, equality and positive relationships is making our staff an important part of the operation.

Responsibility Giving Back

We are proud to deliver financial support to the passionate child care, education and social services provided by Salem Ecuador which is a Community Center for children and youth located in the small town of Mindo. They have honored Las Terrazas de Dana Boutique Lodge & Spa as their first Corporate Sponsorship program participant!

Salem takes care of the most underprivileged and at risk children and young people of the village. They offer them loving care and help to find solutions to their most urgent problems like childcare and education, youth work, further education, social

work & family counseling, ecology, health and nutrition.

Salem projects are affiliated through the shared values of peace and helping those in need. In this way Salem is actively working in global hotspots to help people in difficult situations regardless of their beliefs or nationality.

ECUADOR

Ecuador is one of the world's most diverse countries and its wide variety of destinations offer travelers the opportunity to choose from a range of experiences to explore within its four worlds: The Galapagos Islands, the Pacific coastline, the Andes and Amazonia.

Within its territory are Wildlife Hot Spots, Biosphere Reserves, World Heritage Sites, diverse geography due to the proximity to the Equator Line, multicultural and multiethnic country. This privilege of being both natural and culturally unique diversity engages Ecuador for being recognized as the World's Leading Green Destination on multiple occasions. Besides receiving a total of 25 awards from The World Travel Awards (WTA) in different categories, making it the most winning country in South America.

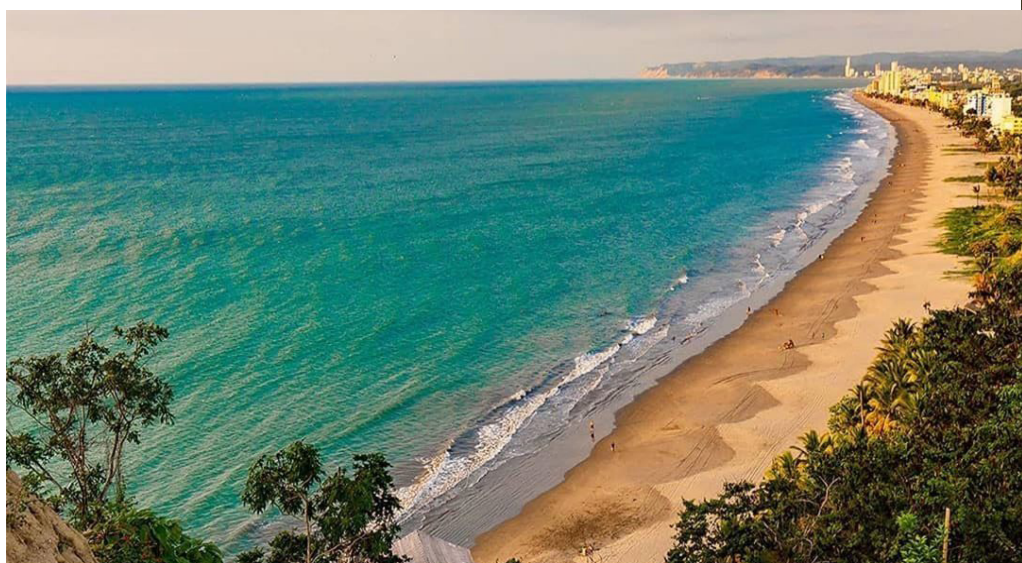

Los Andes

In the Andes, the majestic landscapes of moorlands and lagoons, surrounded by snow-capped mountain ranges and volcanoes which rise well over 5000 meters (16 000 feet). Magical cloud forests full of vibrant orchids, butterflies and birds. The Andes are the best scenario for outdoor activities such as birding, hiking, kayaking, mountain biking and immersive cultural experiences with local communities

Pacific Coast

Then the Pacific coastline hosts stunning, sunny and warm beaches visited by Humpback whales every year for mating and giving birth, fluke and flipper-flap to the delight of all. Perfect site for sunbath, paragliding, swim, stroll or whale watching tours.

The Country of the 4 Worlds

Amazon region

Ecuador's Amazon region, considered home to the highest biodiversity per unit area in the world, is also one of the most accessible and unspoiled tropical rainforests on Earth, and features an array of National Parks and Biological Reserves. Be amazed by wildlife sightseeing tours and getting to know local ethnicities.

Galapagos Islands

The Galapagos Islands, a unique must-visit paradise in the world, was known as the inspiration for Darwin's investigations into his famous book "*On The Origin of Species*"; were declared by UNESCO Natural World Heritage Site in 1978 followed by the declaration of the islands as a Biosphere Reserve in 1984, a whale sanctuary and a UNESCO Natural World Heritage Marine Reserve in 1986. There are amazing opportunities to go on Darwin's footsteps on board of exclusive yacht cruises or island hopping land based programs, wide options available for all types of travelers.

We have a perfect country for setting the most outstanding and incredible trips... Every corner of our country awaits with unique cultures, stories, traditions and flavors that will make you feel part of a different world all your own and we at Dana DMC are compromised in creating the best authentic experiences with tailor-made tours for individual travelers and groups.

Mindo

The town among the Clouds

Mindo is a picturesque small town located at the heart of Andean Choco at Pichincha province in Ecuador; a hot biodiversity spot that was declared as a Biosphere Reserve on 25 July 2018 by UNESCO.

In pre-Columbian time Mindo was a settlement of the Yumbo and Nigua ethnic groups. The word "Mindo" comes from the word "Mindala"; a term used for indigenous merchants.

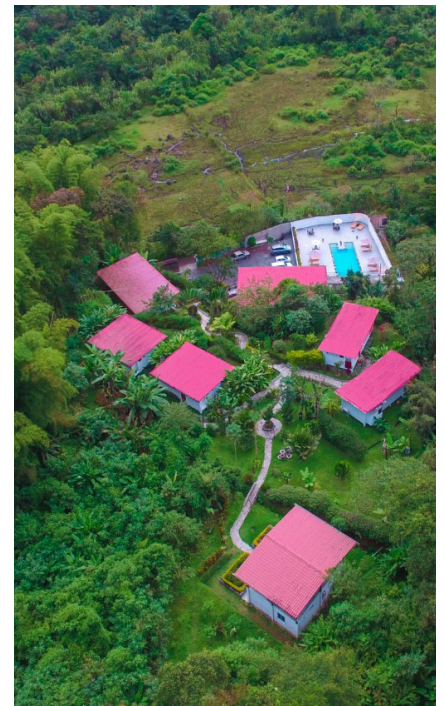

Nowadays, Mindo is a well-recognized as a biodiversity hotspot, hosting 270 species of mammals including the spectacled bear. In addition, 500 species of birds, including endemic species such as the Toucan of Chocó and covers an altitudinal range from 360 to 4,480 meters in height. Is a safe and bio-diverse place with no tropical diseases and highly recommended for nature lovers since it has endemic bird species, orchids in their natural stage, and more wildlife to discover Nature's wonders near Quito.

Las Terrazas de Dana

Boutique Lodge & Spa

We are delighted to invite you to an extraordinary place to enjoy and relax in one of the best birdwatching hotspots in the world, Mindo Cloud Forest.

Our pioneering Boutique - Ecolodge in the Mindo area features a sustainable building combining a modern design, the latest technology in metal frame construction, and traditional construction that takes care of the environment. A comfy, exclusive, and unique place at the same time.

Our Boutique Lodge & Spa Experience

We provide our guests with the best experience and services. Imagine all of the luxuries and amenities of a large resort complemented by personalized assistance. Our goal is to deliver expert insight into the natural treasures and culture that surround our little piece of heaven on earth.

To maintain this slice of paradise for your future visits (*because everyone always wants to come back!*), we are focused on maintaining the highest standards of eco-friendly and sustainable tourism. This way you can rest easy knowing your vacation has left as small of a footprint as possible. Also, our local staff and guides share these values and our confidence in the level of service we are committed to provide our guests.

Our Birding & Photography Programs

Our private birding tours in Mindo Cloud Forest and Ecuador are carefully designed to take advantage of the benefits of this beautiful and bio-diverse country.

Ecuador, despite being one of South America's smaller countries, has an incredible diversity of habitats that support a diverse range of wildlife. It's difficult to imagine a more exciting birding destination which has over 1500 species of birds, many of which are only shared with the adjacent Columbia or Peru. This incredible variety, combined with an excellent network of national parks, naturalist lodges, and professional, specialized, and knowledgeable guides, guarantees a once-in-a-lifetime experience. Ecuador and Dana DMC have something for everyone, as you'll see in our exceptional birding programs for all the explorer levels!

Beginner Birdwatcher

We offer the best service in one of the top and well-known areas for birdwatching in the world by the hand of experienced guides and well balanced itineraries. You will enjoy and learn more about birding.

Advance Birder

We can create a tailor-made birding itinerary if you are looking for any specific bird. Our experts will assist in finding the perfect places and itinerary.

Check some of our experts submissions at eBird.

Bird Photographer

8 hours *Cotopaxi National Park*

Is located 50km south of the capital, home to the Cotopaxi volcano, one of the world's highest active volcanoes. Limpiopungo Lagoon is one of the main attractions, at 4,000 m.a.s.l, you will be able to see stunning views, beautiful species of native flowers and plants, and birds like the Andean gulls, CaraCara, mountain ducks, the Andean Coot, or the Andean Lapwing. Finally, we will be serving a delicious lunch with traditional local gastronomy.

Papallacta Hot Springs **8 hours**

Going to the west, we will find us at Cayambe Coca reserve, 38km from Quito where we can go on an optional 1-hour trek on the trail of the elusive spectacled bear, due to its particular facial markings. Next on our tour is the Papallacta hot springs. This is truly a dream place, with dozens of hot spring pools and a first-rate spa in the Andes' cloud forest. It's a magical haven, where you can relax between amidst lush vegetation and beautiful tropical flowers and mountains views.

Antisana Ecological Reserve, home of the
8 hours *Andean Condor*

Located 60 kilometers southeast of Quito, we will drive to Pintag village to find the way to the Ecological Reserve, where you can find amazing wildlife such as eagles, carunculated caracaras, white tail deer, foxes, and, of course, the majestic Andean Condor. After that, we'll go on a hike to Mica Lake (4.050 m / 13,287 ft) to see some beautiful water birds. Finally, we'll have a delicious lunch at a nearby restaurant.

Quilotoa Crater Lake 8 hours

Heading to the south we will drive to Cotopaxi province and depending on the day of the week we will be able to visit different indigenous markets and communities on our way. Finally we will find the Quilotoa Lagoon a beautiful emerald-green lake, formed as the result of a collapsing volcano at 3,500 m,a,s,l. we will have some options for hiking and taking photographs. That will depend on your physical level. Lunch will be served at one of the local restaurants.

Otavalo Market and Its Surroundings

8 hours

An amazing route to the north of the country going thru semitropical dry valleys and an amazing view of the moorlands and volcanoes will accompany us until we finally arrive to the province of the lakes. Once in Otavalo, famous for its weekly Indian markets, we will stop at Plaza de Los Ponchos (Poncho's Square), a perfect place to do some shopping. Lunch will be served at one of the local restaurants.

Cuenca City Tour 8 hours

The tour begins with a stop at Turi, a scenic viewpoint that translates to "view" in Quichua. Continuing with a visit to the Eduardo Vega Gallery, which is home to one of most well-known ceramists in Ecuador. Then walk through the "Barranco," a neighborhood. After that we will enjoy of a visit to the Pumapungo Museum and then to a Panama hat factory to see how hats made from a fiber called "Paja toquilla" are made. Then we will head to downtown for lunch in a traditional restaurant. Finally we will go for a walk to see the San Francisco market, the flower market, Abdon Calderon Park, the cathedral "El Sagrario," also known as the "Old Cathedral," and finally, the "New Cathedral," which is considered one of Latin America's largest churches.

Ingapirca Archeological Complex, Gualaceo and Choroteleg

8 hours

Our tour begins with a ride through the beautiful highlands, with breathtaking views along the way to the Ingapirca Ruins. This is Ecuador's most important archaeological site; our guide will lead you through the complex to see the terraces, walls, and fortress temple, as well as explain some fascinating Inca-Cañari cultural details. There will be enough time for shopping or simply strolling through the town's fascinating atmosphere. Our final stop will be at a local family's workshop, where we'll see how shawls and ponchos are woven on antique looms using plant-based dyes.

El Cajas National Park 8 hours

Cuenca is only a 40-minute drive from Cajas National Park. In a 70,533-acre area, there are approximately 768 lakes. It is one of Ecuador's most important water sources. It has received international recognition in several categories, including RAMSAR's Wetland of International Importance in 2002, IBA's Area of International Importance for Bird Conservation in 2003, and UNESCO's Biosphere Reserve in 2013. These are the world's tallest trees, and they're native to South America. We will have lunch at a traditional restaurant in the area before returning to Cuenca, where the specialty is a delicious trout.

Guayaquil City Tour and Historical Park

8 hours

The Guayaquil city tour begins in the downtown area, where we can get a good overview of the old city by visiting the Las Peñas traditional neighborhood located on the Santa Ana Hill slopes. Then we will walk over the modern Malecon 2000. Also, we will visit La Rotonda, an important monument commemorating the meeting of generals Simon Bolivar and San Martin. After that, take a stroll through the old town on 9 de Octubre Avenue to Seminario Park, also known as the Iguanas and Centenario Park.

Traditional Hacienda and the Cacao Tour

8 hours

Our adventures will begin early in the morning as we travel to the coast. Hacienda El Castillo, located in the Cerecita Valley, is a wonderful property where visitors can learn about cacao production. Our visitors are welcome to walk through the plantation trails and see how cacao is harvested and then transformed into the most delicious chocolate. Finally the lunch will be served at the Hacienda. Drive to Guayaquil in the afternoon.

Cerro Blanco Ecological Reserve

5 hours

On the way between Guayaquil and Salinas, the Cerro Blanco Ecological Reserve is 36 km away (22 miles). This private reserve, which is one of Ecuador's last remaining dry tropical forests, is home to a diverse range of flora and fauna. We'll go on a hike through Cerro Blanco Reserve, which is home to more than 210 bird species, including the green macaw, kinkajous, and tamanduas, as well as 33 mammal species, including pumas, jaguars, howler monkeys, peccaries, and others. For bird watchers, Cerro Blanco is a heaven and great spot to visit.

Galapagos

The Enchanted Islands

Hidden in the Pacific Ocean, the Galapagos Islands are a place of unique and untouched beauty. A place of inspiration, relaxation and meditations.

The Galapagos Islands are made up of 19 unique islands shaped by volcanic activity and natural forces, bears interesting rock formations and unique looking landscape. The island attracts scientists, and others interested in studying the earth and its unique features. Unique caves, strange landforms and well adapted vegetation will keep you captivated.

It was the place where Charles Darwin gained remarkable insight into life and how it evolves. The theory of evolution by natural selection was developed by Darwin after studying similar species that lived on the different islands. The same species developed different features due to the conditions on the different islands. Many visit the islands for similar insight and revelations.

A trip to the Galapagos Islands is a must for the adventurer and the explorer. It is home to many unique and a few protected species, making the Galapagos Islands a place of wonder and beauty.

“Travel allows you to discover that there are many people in the world with excellent hearts, always ready to serve you even if you have never seen them and will never meet them again”.

Charles Darwin

The Galapagos Islands & Wildlife

GALAPAGOS

ECUADOR

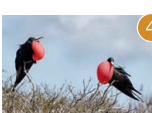

1 FERNANDINA (NARBOROUGH)
An active volcanic island with frequent eruptions. Its steep flanks, streaked with successive lava flows, are arid; marine iguanas gather in their thousands. There's an interesting shore-line trail.

2 ISABELA (ALBEMARLE)
The island has five active volcanoes linked by arid, twisted lava flows. Its cliffs and bays are ideal for exploration by boat and for hikes, and snorkelling is top-notch here.

3 RABIDA (JERVIS)
This small island has a red coral sand beach and a saltwater flamingo lagoon. It's studded with small volcanic craters along sharp slopes and cliffs. There's a bird-fleeced trail leading inland.

4 SANTIAGO (JAMES)
A favourite for pirates and whalers. There are outstanding opportunities for bird-spotting. Stroll around the rock pools or climb Sugar Loaf volcano for views from its summit.

5 BARTOLOME (BARTHOLOMEW)
An extinct volcano, with beautiful landscapes of red, orange, green, and black volcanic formations which you can view from its easily-climbed cone. Swim with penguins and reef sharks.

6 SOMBRERO CHINO (CHINESE HAT)
The distinctive shape of this tiny volcanic cone island gave birth to its name. There's a trail around the shore where you can walk among herds of marine iguanas.

7 SANTA CRUZ (INDEFATIGABLE)
Over 12,000 residents live in Puerto Ayora with services for visitors who board cruise ships or stay in hotels and in the highlands. There are lava tunnels to explore and giant tortoises to spot roaming wild in the mountains.

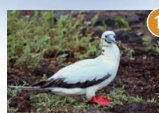

8 BALTRA (SOUTH SEYMOUR)
Baltra is a small island which hosts the islands' principal airport and offers public transport to Puerto Ayora by bus and ferry as well as private transfers for visitors.

9 NORTH SEYMOUR
Covered with boulders and low bushy vegetation. You can watch the courting, mating and nesting rituals here of frigate birds and boobies; stroll on the beach or snorkel.

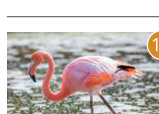

10 PLAZA ISLANDS
There's a cactus forest populated by land iguanas and vegetation which changes colour from green in the rainy season to orange in the dry. Go hiking, birdwatching, swimming and snorkelling.

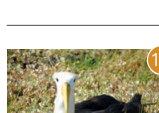

11 GENOVESA (TOWER)
Inside the sunken caldera birds are visible in their thousands; you can hike along the rim. Snorkel with hammerhead sharks or cruise along the cliff ledges to rocky steps named after HRH Prince Philip.

12 SANTA FE (BARRINGTON)
An exquisite island with a turquoise lagoon. Some of the giant cacti here grow 10m high. Some rocks are 4 million years old. A couple of trails lead past sea-lion colonies inland.

13 FLOREANA ISLAND D (CHARLES)
Pirates and whalers dropped anchor here. Visit Post Office Bay, where a barrel served as mailbox to send letters home and snorkel around Devil's Crown, a part-submerged crater.

14 ESPANOLA (HOOD)
There's a huge variety of birds and reptiles, nesting or on the cliffs. Some species, like the waved albatross, aren't seen elsewhere. There's a spectacular blowhole: spray shoots 30m high.

15 SAN CRISTOBAL (CHATHAM)
The Interpretation Centre, where you learn about the history of the islands, is in Puerto Baquerizo Moreno, the capital. Isla Lobos is a dramatic outcrop living up to its name "sea lion island".

What's to do in the Galapagos Islands

WILDLIFE SIGHTINGS

The Galápagos Islands are one of the world's top birding destinations, and you can see them up close almost exclusively. Observe cavorting blue and red-footed boobies, flirting frigate birds, and albatrosses returning to their mate after months at sea. Theatrical elements include iguanas, giant tortoises, and underwater marine life.

LANDSCAPES OF VOLCANOES TO EXPLORE

This is one of the world's most active volcanic areas. It's as if the skeleton of the earth has been exposed. Climb an ash-shrouded volcano, scramble across twisted lava, or descend into lava tunnels the length of a cathedral, and watch a water spout in a fizzy display up to 30 meters high.

WALKINGS ON THE TRAILS

Everyone enjoys walking the island paths, which range from gentle guided strolls to more difficult hiking trails and mountain biking through volcanic landscapes.

ENJOY THE OCEAN

Interact with the sealife that surrounds you to get closer to the action. Set out in a kayak or glass-bottomed boat, ride along the shore in a panga, or try out the popular paddle boarding to get a different perspective on the islands.

SNORKEL WITH SEA LIONS

Snorkeling here does not require any prior experience. Simply put on your mask and join sea lion pups, reef sharks, green sea turtles, and baby penguins from the beach or a boat.

REVEAL THE HISTORY

Although the islands are remote from the mainland, much has happened here over the years – Darwin conceived his Theory of Evolution in the Galápagos, and there are intriguing traces of human activity still visible. On Floreana, see the mail barrel at Post Office Bay and the Wall of Tears built by convicts on Isabela.

RELAX

The islands invite you to simply sit back and relax, thanks to their pleasant climate and serene landscapes. On the sun deck of your cruise or the shaded terrace of your land-based lodgings, relax in a hot tub or watch a tangerine sunset with a cocktail in hand.

GUIDELINES FOR PLANNING *your Galapagos trip*

THE BEST TIME TO GO

Galápagos Islands are fabulous as they are an all year-round sunny destination. There is always something happening! Wildlife is abundant and everpresent.

- Dec-Jun: This is the hottest (maximum temperature around 30°C) and wettest season with clear skies, warm seas, and excellent underwater visibility for swimming and snorkeling.
- Sea turtles lay their eggs from January to May, and iguanas lay their eggs from February to May.
- July-November: Still a good time to go, this is a cooler season (max 24°C) with fresher, choppier seas and the occasional mist (garua). There's a chance you'll see a humpback whale.
- Waved albatross can be seen from April to November, and the sea lion breeding season is from July to December.

HOW LONG YOU SHOULD GO

The length of your stay in the Galápagos will be determined by time, budget, type of accommodation or tours and compatibility with your vacation.

A trip of a week or more in the islands, whether on a cruise, on land, or a combination of both, is ideal, whether you are traveling just to the Galápagos or combining your trip with a visit to more of continental Ecuador or Latin America. Itineraries ranging from 4 to 15 days are most recomendable.

Four to five-day cruises are also highly recommended; you should be able to see the majority of major wildlife species during this time, or you can combine shorter consecutive itineraries on the same boat to create a more comprehensive vacation.

Island hopping and other land-based trips can last anywhere from one to four weeks, depending on how many islands you visit.

Staying at one of the hotels or lodges that offer excursions and activities for a beach wind-down is recommended for a minimum of three nights.

HOW YOU GET THERE

In all cases, commercial flights from mainland Ecuador to the islands are available. There are two airports on the Islands one located in Baltra and other in San Cristóbal.

The flight time is 3:30 hours approximately since most of flights are departing from Quito with connection in Guayaquil. Flights directly to Galapagos nonstop from Guayaquil or Quito can take up 2:30 hours approximately.

HOW TO VISIT THE *Archipelago of Galapagos*

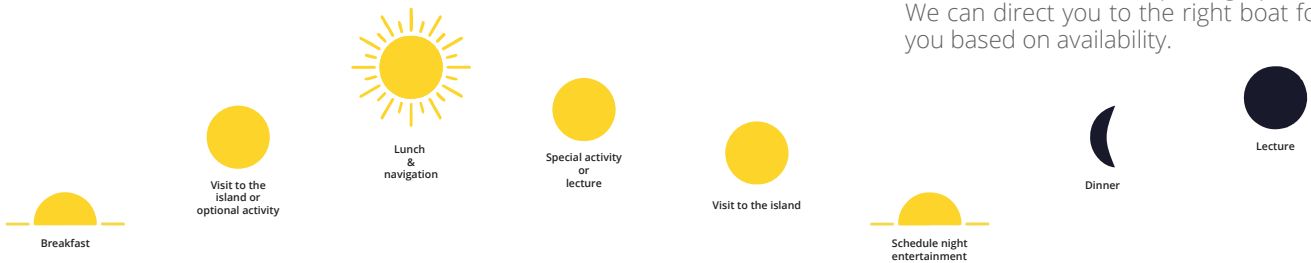

Expedition cruise

Many people choose to visit the Galápagos Islands on a cruise. The motor yacht with daily (wet or dry) landings to explore the islands as per boat's itinerary. It's convenient and gives you a true maritime experience: you usually travel between the islands at night, waking up at anchor at an exciting new destination the next morning.

Small, intimate motor yachts, romantic retro ships, schooners, and sleek luxurious expedition cruise ships are all available, accommodating from 12-100 guests and catering to a variety of budgets.

There are boats that specialize in cruises for families, divers, and photographers. We can direct you to the right boat for you based on availability.

Land based

Other option for who may prefer to sleep on land or get a better understanding of one or two of the islands. On four islands, there are wide variety of more upscale hotels and high-quality fixed-tented lodges, expanding the range of options.

You can not only sleep on the beach, but you can also participate in a variety of activities such as wildlife safaris, kayaking, hiking, mountain biking, and day trips to other islands. If you want to get a taste of both, you can add a land stay to the beginning or end of your cruise: relax or get ready to be more active!

You don't have to commit to just one island if you choose a land-based stay: there is accommodation on four very different islands with options to travel between them by light aircraft or speedboat. Simply let us know your preferences.

IMPORTANT RECOMMENDATIONS:

1. Your passport must be valid for at least 6 months beyond your travel dates. A round/onward trip ticket is needed to prove the length of your stay. Please check with the Ecuadorian consulate or embassy in your country to see if you need a visa to enter Ecuador.
2. We strongly recommend to arrive from your international flight in Quito/Guayaquil 1-2 days before your cruise in Galapagos Islands. The best is to spend the night before the flight to Galapagos Islands in a hotel near the airport.
3. We strongly recommend to avoid booking an international connecting flight on your day of return from Galapagos, as flight delays and cancellations occur with a certain frequency. We cannot be held responsible for any missed international connection.
4. Any special requirements such as dietary, health, physical conditions, special care, languages, etc., must be requested in advance during the quotation process as they may apply additional charges.
